

## Just because our industry is all about soil, sand and rocks, you shouldn't be treated like dirt!

Wouldn't you like to have total control over your deliveries? Does your current service really fulfill all your needs? Are you tired of dealing with an unprofessional workforce?

### We know exactly how you feel!

The aggregates transportation industry in South Florida is notorious for its unreliable service.

The industry has a culture of informality that everyone seems to accept as the norm.

Trucks don't show up on time, and drivers sometimes refuse to load or unload at a job site for any reason

### Your hauling nightmares are over!

In 2017 we realized that the standard "broker" model was no longer viable for our customers or us. In less than three years, we transitioned to a customer-centric business model that completely transformed the structure of our company. Our Blue Truck Service (BTS) allows us to offer an unparalleled level of service to our clients. BTS is now a reality and the answer to your worst hauling nightmares.

## Take a break, relax, and leave the hauling to us!

### How do we do it?

#### IT'S SIMPLE!

- Company-owned and operated fleet of 30 new Mack Trucks
- Uniformed, trained and disciplined workforce
- Capable and experienced Customer Service Team
- Dedicated team of Customer Relationship Managers
- Live updates and minute-by-minute progress of your haul, using our state-of-the-art tracking technology

**If it fits in our truck, we will haul it!**

### Our Services

#### CONSTRUCTION MATERIALS

Eagle Carriers is the source for all your hauling and aggregate construction materials need. Our services include hauling and disposal of construction materials, including:

#### AGGREGATES

Sand, gravel, crushed stone, slag, granite, recycled concrete, and limestone.

#### WASTE DISPOSAL

Construction and demolition debris, e.g., wood, drywall, bricks, concrete, and rebar, all of which often require special collection and handling.
